

# CompTIA Security+ (SY0-701) – Nov 2023

## CompTIA

### Course CompTIA Security+ (SY0-701) – Nov 2023

---

### 3a Kypca (About this Course):

- The new CompTIA Security+ (SY0-701) represents the latest and greatest in cybersecurity, covering the most in-demand skills related to current threats, automation, zero trust, IoT, risk – and more. Once certified, you'll understand the core skills needed to succeed on the job – and employers will notice too. The Security+ exam verifies you have the knowledge and skills required to:
  - Assess the security posture of an enterprise

environment and recommend and implement appropriate security solutions.

- Monitor and secure hybrid environments, including cloud, mobile, Internet of Things (IoT), and operational technology.
- Operate with an awareness of applicable regulations and policies, including principles of governance, risk, and compliance.
- Identify, analyze, and respond to security events and incidents.

CompTIA Security+ is compliant with ISO 17024 standards and approved by the U.S. DoD to meet directive 8140/8570.01-M requirements. Regulators and government rely on ANSI accreditation because it provides confidence and trust in the outputs of an accredited program. Over 2.3 million CompTIA ISO/ANSI-accredited exams have been delivered since January 1, 2011.

- Identify strategies developed by cyber adversaries to attack networks and hosts and the countermeasures deployed to defend them.
- Understand the principles of organizational security and the elements of effective security policies.
- Know the technologies and uses of cryptographic standards and products.
- Install and configure network- and host-based security technologies.
- Describe how wireless and remote access security is enforced.
- Describe the standards and products used to enforce security on web and communications technologies.
- Identify strategies for ensuring business continuity, fault tolerance, and disaster

recovery.

- Summarize application and coding vulnerabilities and identify development and deployment methods designed to mitigate them.

---

## **Цели – Какво ще научите (Course Goals/Skills):**

- Identify the fundamental concepts of computer security
- Identify security threats and vulnerabilities
- Manage data, application, and host security
- Implement network security
- Identify and implement access control and account management security measures
- Manage certificates
- Identify and implement compliance and operational security measures
- Manage risk
- Troubleshoot and manage security incidents
- Plan for business continuity and disaster recovery

---

## **Курсът е предназначен за (Audience):**

- Network Administrators, Security Engineers, Support Analysts, Security Administrator, Security Consultant, IT Managers

---

## Формат на курса

Присъствен Курс

Онлайн (Live)  
Отдалечен

---

## Език на курса (Course Language Option)

Български  
(Bulgarian)

Английски  
(English)

Може да изберете Език на който да се проведе обучението – български или английски. Всичките ни инструктори владеят свободно английски език.

**Учебни Материали:** в електронен формат (Учебните материали са на английски), включени в цената с неограничен достъп.

**Лабораторна среда:** всеки курсист разполага със собствена лаб среда, където се провеждат упражненията, част от курса.

Завършен Курс

---

## Продължителност (Course Duration):

- 5 работни дни (09:00 – 17:00)

**или**

- **40 уч.ч. обучение (теория и практика) в извънработно време с продължителност 4 седмици**
  - събота и неделя 10:00 – 14:00, 14:00 – 18:00, 18:00 – 22:00
  - понеделник и сряда 19:00 – 23:00
  - вторник и четвъртък 19:00 – 23:00
- 

## Плащане

Заявка за издаване на фактура се приема към момента на записването на съответния курс.

Фактура се издава в рамките на 7 дни от потвърждаване на плащането.

---

## Предстоящи Курсове (Next Class):

- There are no upcoming събития.

Не виждате предстоящи събития или искате да ви предложим допълнителни възможности за провеждане?

Пишете ни в чат или използвайте формата за контакт.

Ще се свържем с Вас за потвърждаване на датите.

---

## Предпоставки (Изисквания) за Участие (Prerequisites):

- Networking and administrative skills in Windows-based TCP/IP networks and familiarity with other operating systems, such as OS X, Unix, or Linux.
- 

**Курсът подготвя за следните  
сертификационни нива**

# **. CompTIA Security+ SY0-701 (2023)**
