

ISO 39001 Introduction

ISO 39001 Introduction (PECB)

ISO 39001 Road Traffic Safety Management Trainings

About this Course:

- As an international standard, ISO 39001 specifies the requirements for Road Traffic Safety Management Systems. Additionally, it serves as a tool for organizations to reduce and eventually eliminate accidents, deaths and severe injuries associated with road traffic crashes. Road Traffic Safety (RTS) is considered as a global issue, as the number of accidents that occur worldwide is constantly rising. Therefore, firms and/or individuals, who are committed to improving road safety and offer quality, will benefit from the implementation of ISO 39001. This standard identifies improved elements of road traffic safety, which enable organizations to reach their desired outcomes.
