

Certified Kubernetes Security Specialist (CKS)

Certified Kubernetes Security Specialist (CKS)

About this Course:

The Certified Kubernetes Security Specialist (CKS) program provides assurance that a CKS has the skills, knowledge, and competence on a broad range of best practices for securing container-based applications and Kubernetes platforms during build, deployment and runtime. CKA certification is required to sit for this exam.

Course Goals:

- This course is designed as preparation for the Certified Kubernetes Security Specialist (CKS) exam and will substantially increase students' ability to become certified.
-

Audience:

- This course is ideal for anyone holding a CKA certification and interested in or responsible for cloud security.
-
