

# CompTIA IT Fundamentals (ITF+)

## CompTIA IT Fundamentals

### FC0-U51 & FC0-U61

---

### About this Course:

- In this course, students will identify PC components, work with files and folders, and conduct basic software installations. This course will provide students with the fundamental skills and concepts required to maintain, support, and work efficiently with personal computers. In addition, it covers the essential skills and information needed to set up, configure, maintain, troubleshoot, and perform preventative maintenance of the hardware and software components of a basic personal computer workstation and basic wireless devices. Students will also implement basic security measures and implement basic computer and user support practices. The ITF+ certification is for individuals considering a career in IT. It is an ideal stepping stone to more

advanced certifications such as CompTIA A+, and with specialized experience, CompTIA Network+ and CompTIA Security+. With this new version comes the addition of the + to further distinguish ourselves within the marketplace and represent CompTIA quality and standards. The new ITF+ exam focuses on the knowledge and skills required to identify and explain the basics of computing, IT infrastructure, software development, and database use.
