

EC-Council – Certified Network Defender (CND)

EC-Council – Certified Network Defender (CND v2)

About this Course

Learn the skills that matter! EC-Council's **vendor-neutral network security certifications** provide an unbiased approach to learning secure networking practices, as well as how to analyze and harden computing systems prevalent in the current IT infrastructure.

CND v2 has earned a reputation as the only program in the market that is 100% focused on network security and defense.

IT professionals need to be part of the cybersecurity ecosystem, especially in a post-COVID Digital Transformation era. If you think cybersecurity is the responsibility of cyber teams alone, think again!

Certified Network Defender v2 has been designed by industry experts to help IT Professionals play an active role in

the **Protection** of digital business assets and **Detection** and **Response** to Cyber Threats, while leveraging Threat Intelligence to **Predict** them before they happen. CND is a network security course designed to help organizations create and deploy the most comprehensive network defense system.
