About this Course:

- Given the increasing number of disruptions and the unpredictability of disasters of any kind (natural, occupational, information security), organizations nowadays are aiming at getting certified against ISO 22301 in order to show commitment toward business continuity and ensure that disruptive incidents are detected and properly addressed, thus the management system is continually improved. By becoming a PECB certified auditor, you will achieve a formal and independent recognition of your personal competences, and you qualify yourself to conduct BCMS audits for a certification body.
