ISTQB Foundation Level (EN)

ISTQB Foundation Level (Course/Exam Prep)

About the Course

- Understand fundamental concepts of testing
  Demonstrate understanding of how different development and testing practices, and different constraints on testing, may apply in optimizing testing to different contexts
  Contribute effectively in reviews and apply them
  Use established techniques for designing tests at all test levels
  Interpret, write and execute tests from given test specifications. Report the test results
  Understand test management principles for resources, strategies, planning, project control and risk management
  Write and communicate clear and understandable defect reports
  Understand the project factors that drive the test priorities and the test approach

Appreciate how testing activities and work products align with project objectives and targets
Assist in the selection and implementation process of testing tools

---

Course Format:

Присъствен (Classroom) Курс в Учебната ни зала или В Офис на Клиент	**Онлайн (Online/Virtual) Курс във виртуална зала с инструктор**

Course Language Option

Български (Bulgarian)	**Английски (English)**

You can choose the language to conduct training — Bulgarian or English. All our instructors are fluent in English.

Student Guides

The training materials are available in electronic format.
